

CRYPTONITRO

'STREET RACING IS A SERIOUS BUSINESS'

WHAT IS CRYPTONITRO?

CryptoNitro is an **NFT racing** game based on GTA online races, with a **healthy economic** method, which aims to bring **brands** to the metaverse.

GAMEPLAY

Based on **skill**, **CryptoNitro** have a deep gameplay, with physics, you can **control acceleration, breaks, steering wheel**. Tracks are fun and each race is unique.

COMPETE TO EARN

No Play to Earn, the game is PVP only, **preventing** the **generation** of new **tokens** and money being removed from liquidity.

COLLECTIONS

Our NFTs are true works of **art**, each car is **unique** and can be used within the **game**, there will be special editions and cars **wrapped** by partner **brands**, super exclusive.

EXPANDABLE

CryptoNitro will be played in a city called **NitroCity**, we will launch the city as an open world in the **future**, there, brands can do **marketing**, we can launch features to create more **utility** to our token.

PROBLEMS

There is a lot of problems that NFT gamers **encounter** playing and **investing** in games:

HIGH ENTRY BARRIERS

- Players have a lot of problems to join NFTs games, most of the problems is the **inflate** cost to buy an **NFT**.
- Non-Crypto users needs to learn **complex** crypto **concepts**, such as the different types of **networks**, how to use the Metamask, before **even** playing.

DISTRUST OF GAME ECONOMY

- Projects use **high** income **promises** to build a community and create a value to their token, **unfortunately**, it may cause a **collapse** on the token price and the entire **ecosystem** will collapse.
- Game **math** is not **clear** to the community, with **unnecessary** elements its may cause **misunderstanding** and eventually **losses**.

SEPARATION BETWEEN TEAM AND COMMUNITY

- Devs and founders must be **active** characters in a **community**, not only **participating** in **AMAs**, but talking directly to the community using **social medias**.

SOLUTIONS

TRANSPARENCY

- Our team will be **active** characters in our **community**, not only participating in AMAs, but also playing, and interacting in the **social medias**.
- The game math is **simple**, directly and the players **success** depends all of them.

HEALTHY ECONOMY

- With the **compete to earn** model, we will avoid the biggest problem in NFT games, **rewards** will **come** from other **players**, **not** from a **vault**.

NON-CRYPTO USERS

- We have a special attention for this category of player, so we are creating a mechanism to make **CryptoNitro** feels like a normal game, not like an NFT game, it includes a **user-friendly** gateway to buy Nitrox (our currency) directly from the **liquidity**, also we are creating a **Free Game mode**, and mechanisms to players acquire one **free NFT**.

NON-CRYPTO USERS

- We have a marketing plan, for a long term, to keep our community **playing** and **growing**.

CryptoNitro is a blockchain-based multiplayer **racing** game with a focus on **competitiveness and skill**. The blockchain is needed to somehow monetize the game, either through the token needed for buying, selling NFTs, upgrades, betting, entering **tournaments**. Launch Features:

- **MULTIPLAYER PVP**
- **COLLECTIONS**
- **CAR LEVELS**
- **MARKETPLACE**
- **THREE TRACKS**
- **TWO GAME MODES**
- **ONE FREE-TO-PLAY MODE**

More **Tracks** and **Game Modes** are planned after the game launch.

GAMEPLAY

Player can **control** some factors of the car such as:

- **Accelerate,**
- **Brake,**
- **Control steering wheel,**
- **Activate power-up.**

Cars have **physics** and can **crash** into each other, the power-up increases the car speed for a certain time. **Tracks** will be based on GTA Online, with **Wallrides, Loopings and Ramps**, making each race **unique**.

COMPETE TO EARN

CryptoNitro is a game based on **skill** and **competitiveness**, different from others NFT games, only the **winners** is **rewarded**, and the reward comes from a bet pot, created with both **racers funds**.

This **concept** is called "compete to earn" it's more **closer** to the usual **game industry**.
the token will **support** the ecosystem. marketplace, tournaments, races, collections.

COLLECTIONS

To play the game you **must** have a car from any collection. Each **car** allows you to play **seven** races, every twenty-four hours. This mechanism is essential for the cars to be constantly **valued**.

Currently, we have 3 models:

- The One
- Sheepy
- Van Diesel

Each collection have a **limited** number of cars, also some **special editions** will be created in **special events**, like **tournaments** sponsored by a **brand**. **CryptoNitro** is expected to launch with **10** cars.

METAVVERSE

We have a plan to create our **own city** on **metaverse**, called **NitroCity**, there **CryptoNitro** will be an **open world** car race **game**, a concept next to GTA Online with **multiple** players **online**.

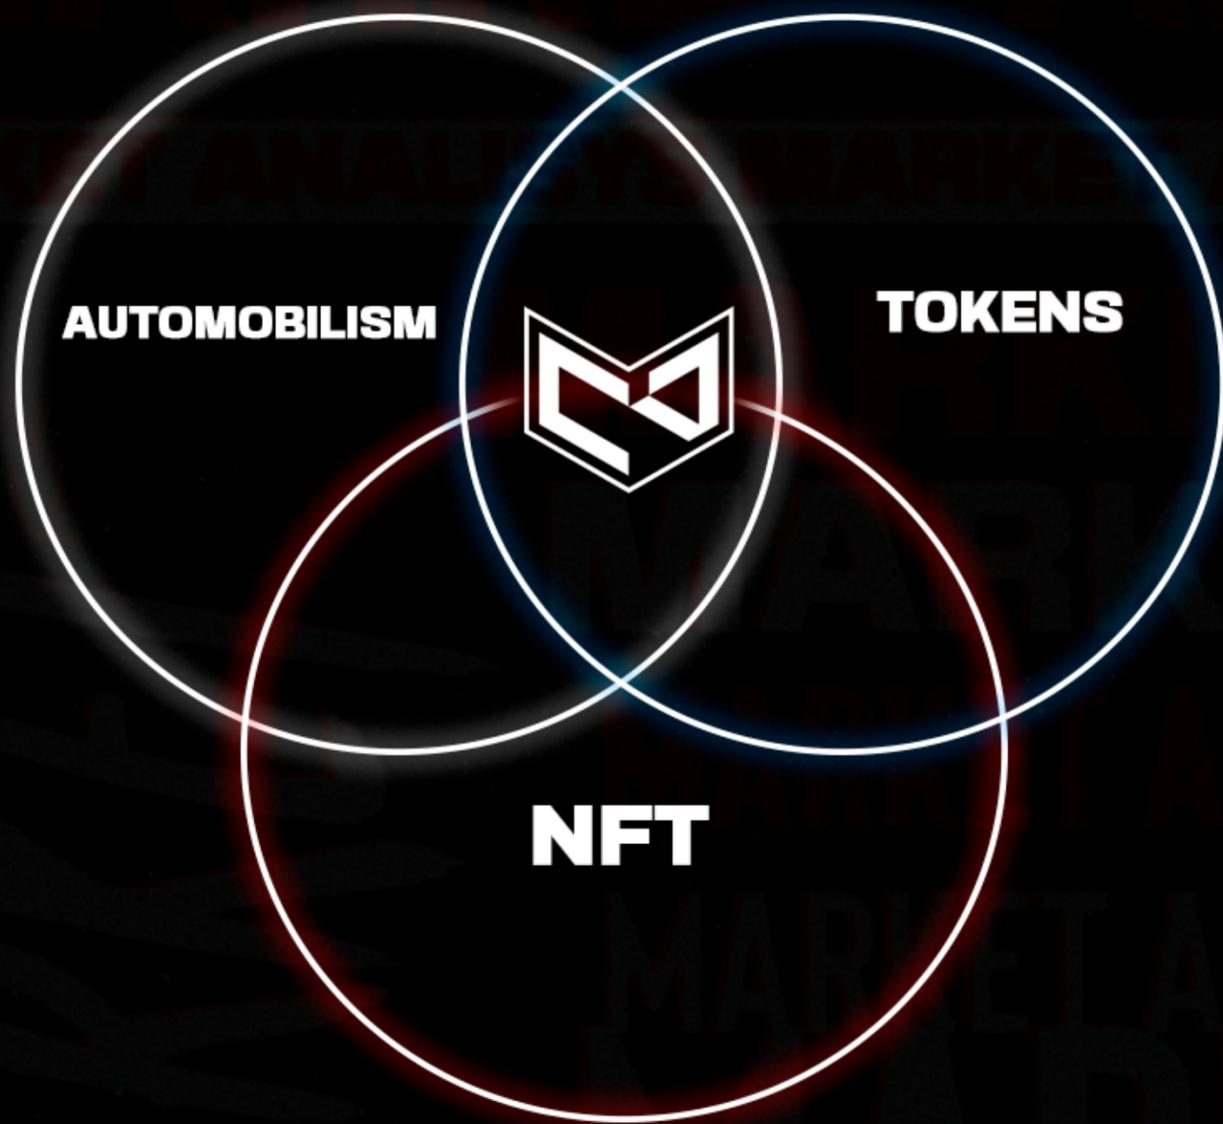

There will be crews, events, special events about the game lore, a **outdoors** reserved for marketing for **brands**.

Nitrox will be the **token** that will support the entire **city**.

NitroCity **development** is expect to start after CryptoNitro's **launch**.

MARKET ANALISYS

\$21.1 Billion

Market Tokens

\$2.7 Trillion

Market Automobolism

\$37 Billion

Market NFT Market

COMPETITOR ANALISYS

- COMPETITIVE GAME
- PLAY TO EARN
- SKILL-BASED GAMEPLAY
- SUSTAINABLE ECOSYSTEM
- SUPPORT 24/7
- MARKETPLACE WITH MYSTERY BOX

TOKEN

Token name: Nitrox (\$NOX)

Network: Binance Smart Chain (BEP20)

Supply: 150.000.000

PLAY

With Nitrox you can access **NitroCity** and races against the best **racers** in the world.

TOURNAMENTS

Join **sponsored tournaments** and earn prizes and cars.

COLLECTIONS

You can use your **\$NOX** to **build** the best and powerful car **collection** of the **metaverse**.

EXPLORE OUR PARTNER'S COMMUNITIES

- We are building **partnerships** to explore their **communities**, c two of our partners are committed to **help** us, we will **explore** Ushark and Cryptobank communities using an **airdrop and marketing** strategy.

EXPLORE OUR PARTNER'S COMMUNITIES

- We are **aiming** the **largest** NFT/Crypto **market** to bring crypto influencers (Thailand, Brazil, USA), we have a **list** of **influencers** that we will offer a long-term **partnership** to create content, **livestreams** and more.

EXPLORE NON-CRYPTO USERS

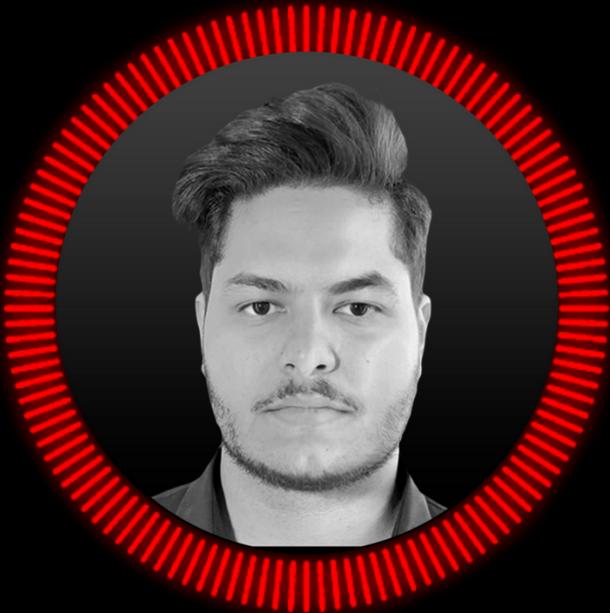

- We are **developing** with our partner Easypay a **gateway** to allow non-crypto users to **buy** Nitrox using **traditional payment** methods, directly from our **liquidity** and with the **lowest** fee possible.

PAID TRAFFIC

- It will be a tool to **boost** the strategies described above, we will use **famous** platforms to reach our **public**; Youtube, Instagram, Facebook, Twitter, Tiktok, Discord and Telegram.

ROADMAP

Q2 2023

- 1ST GAME TRAILER
- DAOMAKER LISTING
- PUBLIC SALE
- AIRDROPS

Q1 2023

- TOKENOMICS RELEASE
- SEED ROUND
- PRIVATE ROUND
- GAME DEVELOPMENT
- PARTNERTSHIPS

Q3 2023

- NITROX DEX LISTING
- GAME RELEASE
- NFT MARKETPLACE LAUNCH
- 1ST CEX LISTING

Q4 2023

- 2ND CEX LISTING
- NEW COLLECTIONS LAUNCHES
- NEW GAME MODE
- 1ST PARTNERSHIP TOURNAMENT

Q1 2024

- START OF THE DEVELOPMENT F NITROCITY.
- NEW COLLECTIONS LAUNCHES.
- NEW TRACKS
- 2ND PARTNERSHIP TOURNAMENT

Q2 2024

- NITROCITY 1ST TRAILER
- CUSTOM GARAGE RELEASE
- NEW GAME MODES
- 3RD PARTNERSHIP TOURNAMENT
